- Two sizes available with 61" and 42" finishing capability
- Ideal 'first laminator' for mounting, laminating and encapsulating

62 Ultra- 64136
44 Ultra- 60959

Image 410

- Easy to use, full featured laminator
- Pre-programmed settings according to application

60074

ProSEAL® 44 /25

- Ultimate in simplicity for new users
- Uses pre-assembled ProSEAL Pouch Boards, Mount Boards & Flexible Pouches only

ProSEAL44- 60824
ProSEAL 25- 60766

SEAL BRANDS CONSUMABLES

HEAT ACTIVATED LAMINATES

Print Guard® UV

Range of low temperature, heat-activated laminates with UV absorbers to prevent image fade and extend print life.

Floor Guard®

A heat-activated overlaminate with a textured, scuff-and slip resistant finish designed for Floor and Tradeshow Graphics.

Jet Guard®

Range of low temperature, heat-activated linerless laminates that are easy to set-up and use.

ENCAPSULATION & MOUNTING FILMS

Thermashield® R

Broad range of thermal polyester encapsulating films, available in premium and economy version in a range of finishes and thicknesses.

Thermashield® MB

A cost-effective, heat-activated, white backing solution ideal for various encapsulating applications.

Stoptlight®

Range of white, heat-activated and pressure-sensitive light blocking backing films with excellent lay flat memory.

PRESSURE SENSITIVE LAMINATES

Print Shield®

Extensive range of pressure sensitive laminates for indoor and outdoor applications. Available in a wide variety of finishes.

Print Shield® Element

A glossy, polymeric PVC pressure-sensitive laminate with high levels of UV absorbers that provides the ultimate in UV protection.

SEAL® Write

A glossy, pressure-sensitive polypropylene film that affords high washability, allowing you to turn virtually any image into a write-on/wipe-off chart or display.

MOUNTING ADHESIVES

Print Mount®

Pressure sensitive adhesive films that offer a superior bond when mounting prints to a variety of substrates. Economy, standard and white versions available.

Optimount®

Optically clear, double sided pressure sensitive adhesive, ideal for face mounting graphics to clear acrylic, plastic and glass.

MultiBond™ HA

A transparent, heat-activated adhesive film that provides a superior bond to a variety of substrates and is ideal for indoor applications.
